# 1 Project that'll Get you a Job

First thing 🙅

Don't add these in your resume

- 🙅 Tic Tac Toe
- 🙅 To Do list app
- 🙅 Simple Website

these are just toy projects

- Development Manager
  - Hiring Manager

these people will  
see your projects

you'll have to  
impress them

To be Honest,

You only need 1 or 2 good  
Project to win the heart   
of an interviewer

make a project using a  
technology that the  
company you're applying  
to is already using

this will instantly give  
you a better chances

## Here are a few Projects-

- Bug Tracker
- A Multi—Platform App
- App that using Machine Learning or Artificial Intelligence
- App with a Beautiful UI (sometimes people will judge you based on your UI)

Go get hired
