# 1.CONTENT EDITABLE

This attribute allow the site visitor to edit the content while viewing the site

```
<p contenteditable="true">Myself Fatima Zehra Kirmani</p>
```

Fatima Zehra Kirmani  
@fatima\_zehra\_kirmani

## 2. DIR

With `dir="auto"` the browser will change the text alignment as per the language of the content.

```
<p dir="auto">Myself Fatima Zehra Kirmani</p>
```

Fatima Zehra Kirmani  
@fatima\_zehra\_kirmani

# 3. READ ONLY

This attribute specifies that an input field or text area is read-only.

A read-only field cannot be modified (however, a user can tab to it, highlight it, and copy the text from it).

```
<input type="text" id="country" name="country" value="Norway" readonly>
```

Fatima Zehra Kirmani  
@fatima\_zehra\_kirmani

## 4. ON PASTE

If you don't want user to paste onto some field like a password you can set `onpaste="return false"`

```
<input type="password" onpaste="return false">
```

Fatima Zehra Kirmani  
@fatima\_zehra\_kirmani

# 5. TITLE

Using the title attribute, you can easily add tooltip to provide extra information to the users

```
<input type="password" onpaste="return false">
```
